DUKE UNIVERSITY PRESS

ECOLOGY

Established 1920

Editors: Peter W. Frank, Department of Biology, University of Oregon, Eugene, Oregon 97403
Monte Lloyd, Department of Biology, University of Chicago, Chicago, Illinois 60637
Ralph L. Dix, Department of Botany and Plant Pathology, Colorado State University, Fort Collins, Colorado 80521
Coordinating Editor: Forest Stearns, Department of Botany, University of Wisconsin-Milwaukee, Milwaukee, Wisconsin 53201
Book Review Editor: Paul S. Martin, Department of Geochronology, University of Arizona, Tucson, Arizona 85721
Editorial Assistants: Mrs. Lloyd L. Smith; Mrs. Evelyn Hess; Mrs. Joan M. Goddard; Mrs. C. W. Ferguson.
Senior Associate Editor: Daniel H. Janzen, Department of Biology, University of Chicago, Chicago, Illinois
Business Manager: William C. Ashby, Southern Illinois University, Carbondale, Illinois 62903
Circulation Office: Duke University Press, Box 6697, College Station, Durham, North Carolina 27708

MEMBERS OF THE EDITORIAL BOARD

1967–69

D. A. Crossley, Jr., Radiation Ecology, Oak Ridge National Laboratory, Oak Ridge, Tennessee
William R. Dawson, Department of Zoology, University of Michigan, Ann Arbor, Michigan
Charles J. Krebs, Department of Zoology, Indiana University, Bloomington, Indiana
Orie L. Loucks, Department of Botany, University of Wisconsin, Madison, Wisconsin
Harold A. Mooney, Department of Botany, University of California, Los Angeles, Los Angeles, California
William A. Niering, Botany Department, Connecticut College, New London, Connecticut
John M. Teal, Woods Hole Oceanographic Institution, Woods Hole, Massachusetts
Richard A. Wagner, Department of Botany, Pennsylvania State University, State College, Pennsylvania

1968–70

Paul K. Anderson, Department of Biology, University of Alberta, Calgary, Alberta, Canada
Peter R. Grant, Department of Zoology, McGill University, Montreal, Quebec, Canada
William J. Hamilton III, Department of Zoology, University of California, Davis, California
Theodore T. Kozlowski, Department of Forestry, University of Wisconsin, Madison, Wisconsin
Clair L. Kucera, Department of Botany, University of Missouri, Columbia, Missouri
Frank J. McCormick, Department of Botany, University of North Carolina, Chapel Hill, North Carolina
George M. Van Dyne, College of Forestry and Natural Resources, Colorado State University, Fort Collins, Colorado
Edward O. Wilson, Biological Laboratories, Harvard University, Cambridge, Massachusetts

1969–71

Janice Beatley, Laboratory of Nuclear Medicine and Radiation Biology, University of California, Los Angeles, California
Melbourne R. Carriker, Marine Biological Laboratory, Woods Hole, Massachusetts
Joseph H. Connell, Department of Biological Science, University of California, Santa Barbara, California
Donald J. Hall, Ecology Section, Langmuir Laboratory, Cornell University, Ithaca, New York
John S. Rowe, Department of Plant Ecology, University of Saskatchewan, Saskatoon, Saskatchewan, Canada
Robert L. Rudd, Department of Zoology, University of California, Davis, California
Donald R. Whitehead, Department of Botany, Indiana University, Bloomington, Indiana
Eugene P. Van Arsdel, Department of Plant Sciences, Texas A & M University, College Station, Texas

Ex officio members: Arthur W. Cooper, North Carolina State University, Raleigh, North Carolina and Alan E. Stiven, University of North Carolina, Chapel Hill, North Carolina (the editors of Ecological Monographs).

Correspondence concerning editorial matters should be addressed to the appropriate editor. All manuscripts should be submitted to the Coordinating Editor and all books and papers for review to the Book Review Editor.

Subscription price in the United States, $18.00 net a year for complete volumes; Canada and the Pan-American countries add 75c for postage; all others add $1.50. Parts of volumes are to be had only at the single copy rate. Current single copies, $3.00 Back volumes, as available, $24.00 each plus postage. Back single issues, $6.00. Special rates to active and sustaining members.

Missing numbers will be supplied free when lost in the mails if written notice is received within one month of the date of issue of next succeeding number.

Remittances for non-members subscriptions should be made payable to Duke University Press.

Remittances for dues should be made payable to the Ecological Society of America.

Business correspondence, including non-member subscriptions, change of address, back numbers, and discontinuances, should be addressed to Circulation Office, Duke University Press, Box 6697, College Station, Durham, N. C. 27708. Correspondence regarding member subscriptions and payment of dues in the Ecological Society should be addressed to the Business Manager, William C. Ashby, Department of Botany, Southern Illinois University, Carbondale, Illinois 62903.

Second-class postage paid at Durham, N. C.

TABLE OF CONTENTS, Volume 50, 1969

HULBERT, STUART H. A coefficient of interspecific association 1– 9
CHRISTENSEN, MARTHA. Soil microfungi of dry to mesic conifer-hardwood forests in northern Wisconsin 9– 27
CABLE, DWIGHT R. Competition in the semidesert grass-shrub type as influenced by root systems, growth habits, and soil moisture extraction .. 27– 38
PERRY, THOMAS O., HAROLD E. SELLERS, AND CHARLES O. BLANCHARD. Estimation of photosynthetically active radiation under a forest canopy with chlorophyll extracts and from basal area measurements 39– 44
SENECA, ERNEST D. Germination response to temperature and salinity of four dune grasses from the Outer Banks of North Carolina 45– 53
LAMARCHE, JR., VALMORE C. Environment in relation to age of bristlecone pines 53– 59
MALY, EDWARD J. A laboratory study of the interaction between the predatory rotifer *Asplanchna* and *Paramecium* 59– 73
HOWMILLER, RICHARD P. Studies on some inland waters of the Galapagos 73– 80
SCHROEDER, LAUREN. Population growth efficiencies of laboratory *Hydra pseudoligactis* Hyman populations 81– 86
GORDON, ROBERT W., R. J. BEYERS, E. P. ODUM, AND R. G. EAGON. Studies of a simple laboratory microecosystem: bacterial activities in a heterotrophic succession 86–100
MACKAY, ROSEMARY AND J. KALFF. Seasonal variation in standing crop and species diversity of insect communities in a small Quebec stream .. 101–109
MOSS, BRIAN AND JOYCE MOSS. Aspects of the limnology of an endorheic African lake (L. Chilwa, Malawi) 109–118
CUBIT, JOHN. Behavior and physical factors causing migration and aggregation of the sand crab *Emerita analoga* (Stimpson) 118–123
BRAGG, LOUIS H. Pollen size variation in selected grass taxa 124–127
ANDERSON, H. G. Growth form and distribution of vine maple (*Acer circinatum*) on Marys Peak, western Oregon 127–130
AU, SHU-FUN. Internal leaf surface and stomatal abundance in arctic and alpine populations of *Oxyria digyna* 131–134
TANTON, M. T. A corer for sampling soil and litter arthropods 134–135
SALT, GEORGE W. A measure of culture-induced changes in a laboratory population of protozoa 135–137
WARE, STEWART A., AND ELSIE QUARTERMAN. Seed germination in cedar glade *Talinum* 137–140
WEBER, NEAL A. Ecological relations of three *Atta* species in Panama ... 141–147
JANZEN, DANIEL H. Allelopathy by myrmecophytes: the ant *Azteca* as an allelopathic agent of *Cecropia* 147–153
POULSON, THOMAS L. AND DAVID C. CULVER. Diversity in terrestrial cave communities 153–158
EMMEL, THOMAS C. AND JOHN F. EMMEL. Selection and host plant overlap in two desert *Papilo* butterflies 158–169
WHITTAKER, R. H. Commentary: A view toward a National Institute of Ecology 169–170
QUADE, H. W. Cladoceran faunas associated with aquatic macrophytes in some lakes in northwestern Minnesota 170–179
REID, C. P. P. AND FRANK W. WOODS. Translocation of C-labeled compounds in mycorrhizae and its implications in interplant nutrient cycling 179–187

CAPERON, JOHN. Time lag in population growth response of *Isochrysis galbana* to a variable nitrate environment 188–192
BROCK, M. LOUISE, R. G. WIEGERT, AND T. D. BROCK. Feeding by *Paracoenia* and *Ephydra* (Diptera: Ephydridae) on the microorganisms of hot springs 192–200
PETERSON, EVERETT B. Radiosonde data for characterization of a mountain environment in British Columbia 200–206
SWAN, J. M. A., R. L. DIX, AND C. F. WEHRHAHN. An ordination technique based on the best possible stand-defined axes and its application to vegetational analysis 206–212
HOLLAND, P. G. Weight dynamics of *Eucalyptus* in the mallee vegetation of southeast Australia 212–219
KNIGHT, DENNIS H. AND ORIE L. LOUCKS. A quantitative analysis of Wisconsin forest vegetation on the basis of plant function and gross morphology 219–234
WHITEHEAD, DONALD R. AND KIAT W. TAN. Modern vegetation and pollen rain in Bladen County, North Carolina 235–248
VOGL, RICHARD. One-hundred and thirty years of plant succession in a southeastern Wisconsin lowland 248–255
ANDERSON, R. C., O. L. LOUCKS, AND A. M. SWAN. Herbaceous response to canopy cover, light intensity, and throughfall precipitation in coniferous forests 255–263
GINDEL, I. Stomatal number and size as related to soil moisture in tree xerophytes in Israel 263–267
WILSON, EDWARD O. AND DANIEL S. SIMBERLOFF. Experimental zoogeography of islands. Defaunation and monitoring techniques 267–278
SIMBERLOFF, DANIEL S. AND EDWARD O. WILSON. Experimental zoogeography of islands. The colonization of empty islands 278–296
SIMBERLOFF, DANIEL. Experimental zoogeography of islands. A model for insular colonization 296–314
FOSTER, MERCEDES. Synchronized life cycles in the Orange-crowned Warbler and its mallophagan parasites 315–323
NORD, EAMOR C., DONALD R. CHRISTENSEN, AND A. PERRY PLUMMER. Atriplex species (or taxa) that spread by root sprouts, stem layers, and by seed 324–326
WHITCOMB, CARL E., ELIOT C. ROBERTS, AND ROGER Q. LANDERS. A connecting pot technique for root competition investigations between woody plants or between woody and herbaceous plants 326–328
DAWSON, TERENCE J., AND M. J. S. DENNY. A bioclimatological comparison of the summer day microenvironments of two species of arid zone kangaroo 328–332
HIRTH, HAROLD F., ROBERT C. PENDLETON, ARTHUR C. KING, AND THOMAS R. DOWNARD. Dispersal of snakes from a hibernaculum in northwestern Utah 332–339
GIBBONS, J. WHITFIELD AND DONALD W. TINKLE. Reproductive variation between turtle populations in a single geographic area 340–341
MACARTHUR, ROBERT. Commentary: The ecologist's telescope 353
MCCOLL, J. G. Soil-plant relationships in a *Eucalyptus* forest on the south coast of New South Wales 354–362
VANDERMEER, JOHN H. The competitive structure of communities: an experimental approach with Protozoa 362–371
BISHOP, JOHN E. Light control of aquatic insect activity and drift 371–380
OLIVE, JOHN H., DUANE M. BENTON, AND JACK KISHLER. Distribution of C^{14} in products of photosynthesis and its relationship to phytoplankton composition and rate of photosynthesis 380–386
PARSONS, R. F. Physiological and ecological tolerances of *Eucalyptus incrassata* and *E. socialis* to edaphic factors 386–390
YARRANTON, G. A. Pattern analysis by regression 390–395

Malone, Charles R., and Margaret B. Swartout. Size, mass and caloric content of particulate organic matter in old-field and forest soils 395–399
Cunningham, G. L. and B. R. Strain. Ecological significance of seasonal leaf variability in a desert shrub..... 400–408
Davis, Margaret. Climatic changes in southern Connecticut recorded by pollen deposition at Rogers Lake..... 409–422
McCree, K. J. and R. S. Loomis. Photosynthesis in fluctuating light... 422–428
McDonough, Walter T. Carbohydrate reserves in *Mertensia arizonica* as related to growth, temperature and clipping treatments..... 429–432
Zedler, Joy B. and Paul H. Zedler. Association of species and their relationship to microtopography with old fields..... 432–442
Hamner, W. M., Michael Smyth, and E. D. Mulford, Jr. The behavior and life history of a sand-beach isopod, *Tylos punctatus*..... 442–453
Perez, Kenneth T. An orthokinetic response to rates of salinity change in two estuarine fishes..... 454–457
Stross, R. G. and D. A. Kangas. The reproductive cycle of *Daphnia* in an arctic pool..... 457–460
Bock, Jane H. Productivity of the water hyacinth *Eichhornia crassipes* (Mart.) Solms..... 460–464
Vincent, Robert E. and W. M. Miller. Altitudinal distribution of brown trout and other fishes in a headwater tributary of the south Platte River, Colorado..... 464–466
Sheldon, Andrew L. Equitability indices: dependence on the species count 466–467
Monk, Carl D., George I. Child, and Stuart A. Nicholson. Species diversity of a stratified oak-hickory community..... 468–470
Barbour, Roger W., Michael J. Harvey, and James W. Hardin. Home range, movements, and activity of the eastern worm snake, *Carphophis amoenus amoenus*..... 470–476
Hillman, Peter. Habitat specificity in three sympatric species of *Ameiva* (Reptilia: Teiidae)..... 476–481
Collias, Nicholas E. and Elsie C. Collias. Size of breeding colony related to attraction of mates in a tropical passerine bird..... 481–488
Baroni-Urbani, Caesare. Ant communities of the high-altitude Appenine grasslands..... 488–492
Studier, Eugene H. and A. A. Fresquez. Carbon dioxide retention: a mechanism of ammonia tolerance in mammals..... 492–494
Edwards, C. A., D. E. Reichle, and D. A. Crossley, Jr. Experimental manipulation of soil invertebrate populations for trophic studies..... 495–498
Pianka, Eric R. Habitat specificity, speciation, and species density in Australian desert lizards..... 498–502
Eberhardt, L. L. Some aspects of species diversity models..... 503–505
Martinsen, David L. Energetics and activity patterns of short-tailed shrews (*Blarina*) on restricted diets..... 505–510
Strain, B. R. Seasonal adaptations in photosynthesis and respiration in four desert shrubs growing in situ..... 511–513
Baskerville, G. L. and P. Emin. Rapid estimation of heat accumulation from maximum and minimum temperatures..... 514–517
Golley, Frank B. Caloric value of wet tropical forest vegetation..... 517–519
Ward, Richard T. Ecotypic variations in *Deschampsia caespitosa* (L). Beauv. from Colorado..... 519–522
Cantlon, John E. Commentary: Confrontation or cooperation in the cornfield 535
Sinha, R. N., H. A. H. Wallace and F. S. Chebib. Principal-component analysis of interrelations among fungi, mites and insects..... 536–547
Kavanau, J. Lee. Influences of light on activity of small mammals..... 548–557
Rosenzweig, Michael L. and Jerald Winakur. Population ecology

of desert rodent communities: Habitats and environmental complexity 558–572
STIRLING, IAN. Ecology of the Weddell Seal in McMurdo Sound, Antarctica 573–586
KREBS, CHARLES J., BARRY L. KELLER AND ROBERT H. TAMARIN. *Microtus* population biology: Demographic changes in fluctuating populations of *M. ochrogaster* and *M. pennsylvanicus* in southern Indiana... 587–607
SINKO, JAMES W. AND WILLIAM STREIFER. Applying models incorporating age-size structure of a population to *Daphnia*..... 608–615
SALE, P. F. Pertinent stimuli for habitat selection by the juvenile manini, *Acanthurus triostegus sandvicensis*..... 616–623
KENNY, RON. The effects of temperature, salinity and substrate on distribution of *Clymenella torquata* (Leidy) Polychaeta..... 624–631
BROCKELMAN, WARREN Y. An analysis of density effects and predation in *Bufo americanus* tadpoles..... 632–644
WILHM, JERRY L. AND JOSEPH LONG. Succession in algal mat communities at three nutrient levels..... 645–652
MCKELL, C. M., CAMERON DUNCAN, AND CORNELIUS H. MULLER. Competitive relationships of annual ryegrass (*Lolium multiflorum* Lam.).. 653–657
MOIR, W. J. AND E. P. BACHELARD. Distribution of fine roots in three *Pinus radiata* plantations near Canberra, Australia..... 658–662
JORDAN, CARL F. Derivation of leaf-area index from quality of light on the forest floor..... 663–666
RITCHIE, GARY A. Cuvette temperatures and transpiration rates..... 667–670
MUEGGLER, W. F. AND C. A. HARRIS. Some vegetation and soil characteristics of mountain grasslands in central Idaho..... 671–678
BARBOUR, MICHAEL G. Age and space distribution of the desert shrub *Larrea divaricata* 679–685
PATTEN, D. T. AND B. E. DINGER. Carbon dioxide exchange patterns of cacti from different environments..... 686–688
COOKE, WM. BRIDGE AND GEORGE S. MATSUURA. Distribution of fungi in a waste-stabilization pond system..... 689–694
KUMLER, M. L. Plant succession on the sand dunes of the Oregon coast.. 695–704
BROWN, JAMES H. AND GEORGE A. BARTHOLOMEW. Periodicity and energetics of torpor in the kangaroo mouse, *Microdipodops pallidus*.... 705–709
WEAVER, MORRIS E. AND DOUGLAS L. INGRAM. Morphological changes in swine associated with environmental temperature..... 710–713
RICKLEFS, ROBERT E., RALPH M. ADAMS AND ROBERT L. DRESSLER. Species diversity of *Euglossa* in Panama..... 713–716
ROHLF, F. JAMES. The effect of clumped distributions in sparse populations 716–721
BEATLEY, JANICE C. Dependence of desert rodents on winter annuals and precipitation 721–724
SHURE, DONALD J. AND PAUL G. PEARSON. Distribution of P^{32} in *Ambrosia artemisiifolia*; its implications for trophic transfer studies..... 724–726
TOBIESSEN, PETER. An inexpensive pressure chamber for xylem water tension measurements 726–728
MALONE, C. R. AND D. J. NELSON. Feeding rates of freshwater snails (*Goniobasis clavaeformis*) determined with $Cobalt^{60}$..... 728–730
LESKE, G. L. AND R. B. WALKER. Effect of sea water on seed germination in two Pacific atoll beach species..... 730–734
LANDAHL, JOHN T. AND RICHARD B. ROOT. Differences in the life tables of tropical and temperate milkweed bugs, genus *Onopeltus* (Hemiptera: Lygaeidae) 734–737
MINORE, DON. Yellow skunk-cabbage (*Lysichitum americanum* Hult and St. John)—an indicator of water-table depth..... 737–739
KOWAL, NORMAN EDWARD. Effect of leaching on pine litter decomposition rate..... 739–740

PEARSON, L. C. Influence of temperature and humidity on distribution of lichens in a Minnesota bog 740–746
PALMBLAD, IVAN G. Populational variation in germination of weedy species 746–748
FOSBERG, F. RAYMOND. Commentary: A balanced economy 763–764
TERBORGH, JOHN AND JOHN S. WESKE. Colonization of secondary habitats by Peruvian birds 765–782
ORIANS, GORDON H. The number of bird species in some tropical forests 783–801
MACARTHUR, ROBERT H. AND HENRY S. HORN. Foliage profile by vertical measurements 802–804
GILL, ROBERT W. Soil microarthropod abundance following old field litter manipulation 805–816
DORNEY, ROBERT S. Epizootiology of trypanosomes in red squirrels and eastern chipmunks 817–824
STEENBERGH, WARREN F. AND CHARLES H. LOWE. Critical factors during the first years of life of the Saguaro (*Cercus giganteus*) at Saguaro National Monument 825–834
TURNER, RAYMOND M., STANLEY M. ALCORN AND GEORGE OLIN. Mortality of transplanted Saguaro seedlings 835–844
DAVIES, RONALD W. AND T. B. REYNOLDSON. The incidence and intensity of predation on lake-dwelling triclads in the laboratory 845–853
BOTKIN, D. B. Prediction of net photosynthesis of trees from light intensity and temperature 854–858
SCHWEGER, CHARLES EARL. Pollen analysis of Iola Bog and paleoecology of the Two Creeks Forest Bed, Wisconsin 859–868
SCHLATTERER, EDWARD F. AND E. W. TISDALE. Effects of litter of *Artemisia, Chrysothamnus,* and *Tortula* on germination and growth of three perennial grasses 869–873
HULBERT, LLOYD C. Fire and litter effects in undisturbed bluestem prairie in Kansas 874–877
MILLER, PHILIP C. Tests of solar radiation models in three forest canopies 878–885
HAMILTON, WILLIAM J. III AND WILLIAM M. GILBERT. Starling dispersal from a winter roost 886–898
IDSO, S. B., W. L. JACKSON, W. L. EHRLER, AND S. T. MITCHELL. A method of infrared emittance determination of leaves 899–902
BOCK, CARL E. Intra- vs. interspecific aggression in pygmy nuthatch flocks 903–905
WHITE, T. C. R. An index to measure weather-induced stress of trees associated with outbreaks of psyllids in Australia 905–909
MCDANIEL, IVAN N. Penetration of coniferous trees by DDT 909–910
LEVINS, RICHARD AND ROBERT MACARTHUR. An hypothesis to explain the incidence of monophagy 910–911
FLAHERTY, DONALD L. Ecosystem trophic complexity and Willamette mite *Eotetranychus willamettei* Ewing (Acarina: Tetranychidae), densities 911–916
CHASTON, I. The light threshold controlling the vertical migration of *Chaoborus punctipennis* in a Georgia impoundment 916–920
TEW, RONALD K., NORBERT V. DEBYLE AND JOHN D. SHULTZ. Intraclonal root connections among quaking aspen trees 920–921
WITKAMP, MARTIN. Cycles of temperature and carbon dioxide evolution from litter and soil 922–924
GORDON, JOHN C. Effect of shade on photosynthesis and dry weight distribution in yellow birch (*Betula alleghaniensis* Britton) seedlings 924– 927
TRAMER, ELLIOT. Bird species diversity: components of Shannon's formula 927– 929

ORIANS, GORDON H. AND HENRY S. HORN. Overlap in foods of four species of blackbirds in the potholes of Central Washington..... 930– 938
MARTIN, PAUL S. Commentary: The chemical plow in the bush..... 949
PAINE, ROBERT T. The Pisaster-Tegula interaction: prey patches, predator food preference, and intertidal community structure..... 950– 961
HAERTEL, LOIS, CHARLES OSTERBERG, HERBERT CURL, JR. AND P. KILHO PARK. Nutrient and plankton ecology of the Columbia River estuary 962– 978
SHORT, ZELLA, R. F. PALUMBO, P. R. OLSON AND J. R. DONALDSON. The uptake of iodine-131 by the biota of Fern Lake, Washington, in a laboratory and field experiment..... 979– 989
LEE, FRED G. AND WILLIAM WILSON. Use of chemical composition of freshwater clamshells as indicators of paleohydrologic conditions... 990- 997
HEUSCHELE, ANN S. Invertebrate life cycle patterns in the benthos of a flood-plain lake in Minnesota..... 998–1011
PIANKA, ERIC R. Sympatry of desert lizard (*Ctenotus*) in Western Australia 1012–1030
RICKLEFS, ROBERT E. Preliminary models for growth rates of altricial birds 1031–1039
KELLEHER, KELVIN E. AND JOHN R. TESTER. Homing and survival in the Manitoba toad, *Bufo hemiphyrys,* in Minnesota..... 1040–1048
BRYANT, EDWIN H. The fates of immatures in mixtures of two housefly strains..... 1049–1069
ENRIGHT, J. T. Zooplankton grazing rates estimated under field conditions 1070–1075
TURNER, FREDERICK B., ROBERT I. JENNRICH AND JOEL D. WEINTRAUB. Home ranges and body size of lizards..... 1076–1081
GLASS, LYNN W. AND RICHARD V. BOVBJERG. Density and dispersion in laboratory populations of caddisfly larvae (*Cheumatopsyche, Hydropsychidae*) 1082–1084
GIESEL, JAMES T. Factors influencing the growth and relative growth of *Acmaea digitalis,* a limpet..... 1084–1087
STALTER, RICHARD. Transplantation of salt marsh vegetation, Georgetown, South Carolina..... 1087–1089
HUEY, RAYMOND B. Winter diet of the Peruvian Desert fox..... 1089–1091
HAIRSTON, NELSON. On relative abundance of species..... 1091–1094
BURNETT, ALTA M., W. H. MASON, AND S. T. RHODES. Reingestion of feces and excretion rates of Zn^{65} in *Popilius disjunctus* versus *Cryptocercus punctulatus*..... 1094–1096
HOFFMAN, RICHARD L. AND JERRY A. PAYNE. Diplopods as carnivores..... 1096–1098
WATKINS, JULIAN F. II, FREDERICK R. GEHLBACH, AND JAMES C. KROLL. Attractant-repellant secretions in blind snakes (*Leptotyphlops dulcis*) and army ants (*Neivamyrmex nigrescens*)..... 1098–1102
REICHLE, DAVID. Measurement of elemental assimilation by animals from radioisotope retention patterns..... 1102–1104
LETTERS 939
REVIEWS:.....160–168, 342–351, 523–533, 749–761, 940–947, 1105–1111
INDEX FOR VOLUME 50..... 1113
